Publication of Task Force on Climate-related Financial Disclosures ("TCFD") report

In accordance with its undertaking to enhance its disclosure of climate-related information to stakeholders PPC is pleased to report that it will be publishing its inaugural TCFD report, to enhance its disclosure to stakeholders regarding climate-related information, on 29 November 2021. The TCFD report provides a framework for the publication of more effective climate-related reporting disclosures by companies. PPC recognises the global threat of climate change and the challenges associated with achieving net-zero emissions by 2050. The company is committed to reducing its carbon footprint, and participating in the collective actions needed to address key barriers to decarbonisation. This report details PPC's evolving climate change strategy and outlines the decarbonisation reduction ambitions underpinning that strategy.

The Company's TCFD report will be published on its website on the 29th November 2021 and the publication will be followed by an online presentation.
