

**11PLC LAUNCHES SALE OF LIQUEFIED PETROLEUM GAS (LPG)
POPULARLY CALLED DOMESTIC COOKING GAS IN NIGERIA.**

LAGOS, 13 JUNE 2018

We are pleased to inform the investing public of our re-entry into retailing of LPG at some of our Mobil service stations in Lagos. We are returning to this line of business that we exited from over 20 years ago, taking advantage of the huge natural gas reserves in Nigeria. We are starting with 14 retail outlets across the chain with a target aim to cover additional outlets in the country in the near future.

This development is also part of the several positive synergies post the acquisition of the Company's majority shares by NIPCO plc in 2016. By implication, the two companies can very readily leverage off each other's strength and core competencies.

The investments we have made are not limited to LPG assets such as the 5,000 Kg gas skids, compressors, pumps, generating sets, water hydrants and other safety equipment; we will also continually invest in human capital development and training of our personnel to ensure a very safe operation and guaranty quality product and service to our customers at all times.
