Dear Shareholder,

Your company has, over the past 3 months, been involved in negotiations which if successfully concluded may have had a material impact on the share price of the company. The board would like to advise shareholders that these negotiations have been terminated; the company has, however, been able to restructure US\$2,5m of its short term debt at an average cost of 12.5% p.a into a non-convertible 2½ years, tradable, redeemable unlisted debenture issued at 9% p.a. to unrelated parties. The debenture is secured by trading stock.

By order of the Board,

M.S. Gurira  
Company Secretary
